

Vibro Grader

**Better Classification
Improves the quality of the End Product**

Vibro Grader

Advantages

- Better Classification – Improves the quality of the End Product
- Easy to Operate – Finer adjustment in classification
- Minimum Maintenance
- Robust Construction

Bezalel Vibro Grader provides an excellent classification and separation of granular material and thus ensures better quality of the end product. It classifies a wide variety of products by size. The large screens are provided with maximum number of holes to obtain high outputs.

Vibration of the screens is provided by means of vibrators mounted in the center of the machine. The vibrating deck is mounted on four rubber springs, thus ensuring that the vibrations of the machine frame are reduced to a minimum.

Throughout the process a cleaning procedure using rubber balls continuously ensures effective sieve cleaning. Using simple, interchangeable sieves, easily replaceable wear parts. Outlet spouts are provided with individual partitions.

Application Areas: Rice, millets, cocoa bean, coffee, peanuts, corn, fried gram, beans, peas etc.

Description	UOM	VG2X6	VG3X8	VG4X10
Power Required	HP (KW)	1 (0.75)	1 (0.75)	2 (1.5)
Capacity	Ton/Hr	1 - 1.5	2.5- 3.3	4-5
Screen Width	mm	600	900	1200
Screen Length	mm	1800	2450	3000

Tailored solutions can be developed upon customer requirement.
